

MURANO

The all new 2009 Nissan Murano. It's a crossover that's as stylish and innovative on the inside as it is on the outside. The Xtronic Continuously Variable Transmission combines with an engine from the most awarded V6 series in history to redefine smooth acceleration and performance. The elegantly modern interior offers extraordinary space and comfort, with Ti features including Satellite Navigation, rear view camera with Predictive Path Technology and a power rear tailgate. The all new Murano will do more than just change the way you look at Nissan, it'll change the way you look at cars.

† Towing capacity is subject to towbar/towball capacity. The capacity may be reduced if a non genuine Nissan towbar is fitted. The permitted download is directly related to the laden mass of vehicle. The maximum towball download is 150kg.

Towball download must not exceed 25kg at GVM. To increase the Towball download above 25kg, the vehicles rear mass needs to be decreased as per the following table.

Towball download	Vehicle Mass
25kg	GVM (All Variants)
50kg	Reduced loaded vehicle mass below GVM* by 40kg
100kg	Reduced loaded vehicle mass below GVM* by 100kg
150kg	Reduced loaded vehicle mass below GVM* by 160kg

If the loaded vehicle mass is reduced as shown in the table, the towball download can be increased correspondingly. Accordingly, if the laden mass is 160kg less than the GVM#, a towball download of 150kg is approved.

Different trailer types and different trailer manufacturers have varying towball downloads. The customer will need to contact the trailer manufacturer for information as to the download.

Nissan is not able to make any recommendation on the use or suitability of load-leveling or weight distribution devices to be fitted to the vehicle. Customers should contact the manufacturers of these devices for further information.

*GVM = Gross Vehicle Mass. GVM includes the driver, 4 passengers, full fuel tank and luggage.

Δ Figures have been calculated in accordance with ADR81/01. Actual fuel consumption will vary depending on driving conditions, driver behavior, the condition of your vehicle and the accessories fitted.
